Name: Zayn		
Patient ID: 486	Owner: Ashita Arora	Date: 10 Sep 2025
Species: Canine	Age: 3 yr 10 mos	Weight: 30.0 Kg [66.1 lbs]
Breed: Labrador	Sex: Male (neutered)	Ref Dr: Dr. Makarand Chavan

ABDOMINAL ULTRASOUND REPORT

Findings:

Liver: Normal in size and echotexture. There is no e/o focal or diffuse abnormality. Hepatic vasculature is normal.

Gall bladder: Physiologically well-distended with normal walls. There is no e/o calculus or cholecystitis or any mass in the gall bladder. The bile duct is not dilated.

Pancreas: Normal in size and echotexture. No mass or calcification noted.

Stomach: Normal in wall thickness. Stomach contents are normal with no foreign bodies visualized on ultrasound.

Intestinal loops: All observed bowel segments appear normal in wall thickness and layering.

Kidneys: Both kidneys are normal in size, shape, position and echotexture. There is no e/o of hydronephrosis, calculus or mass in either kidney. The cortical thickness is well maintained in both kidneys. The right kidney measures 4.99 cm x 2.63 cm . The left kidney measures 5.31 cm x 2.46 cm.

Urinary bladder: Well-distended with normal wall thickness of 2.3 mm. No calcification or mass is seen in the bladder.

Spleen: Normal in size, shape and echotexture. Splenic parenchyma is homogenous with normal echogenicity, and no focal lesions visualized. The splenic vein is normal in course and caliber.

Prostate: Normal in size and echotexture.
